

UTILIMASTER **REACH**TM **Body Parts Manual**

2016

NOTE: “V1” represents options that were installed earlier in 2016 and “V2” are variations of those same options installed later in the year.

— Revision B —

Introduction

Congratulations on operating a Reach vehicle with a quality Utilimaster® body. Utilimaster is dedicated to serving our customers' needs through the excellence of our products, services, and information. Please read and follow the instructions in this document for safe and optimal operation and maintenance of this vehicle.

This manual contains exploded-view drawings, parts lists, and photos to aid in ordering replacement parts. It may include information on some items installed but not manufactured by Utilimaster Corporation. Information provided here is intended to assist Utilimaster customers and is in no way meant to replace or supersede instructions provided by other suppliers for their products.

This manual covers only those assemblies manufactured by or installed by Utilimaster® Corporation. Items such as chassis and drive train components or certain interior furnishings are covered by separate manufacturer-supplied information. For information on chassis and drivetrain operations, see the ***Isuzu's NPR Stripped Chassis Owner's and Driver's Manual***. For additional technical documentation on service and wiring see the references in the More Information and Publications section.

Utilimaster Corporation attempts to provide accurate, complete, and useful information. All information contained in this manual is based on the latest product information available at the time of publication. However, because of the Utilimaster policy of continual product improvement, Utilimaster reserves the right to amend the information in this document at any time without prior notice.

NOTE: The information in this document is generic. Images and procedures may differ from those for vehicles you are servicing. Because Utilimaster manufactures customized vehicle bodies, this document cannot list and illustrate every possible option for every vehicle. The most common body options are described here. Use this information as a guideline.

Vehicle Overview

VIN, Body Serial, and Work Order Numbers

The 17-digit chassis **Vehicle Identification Number (VIN)** is the legal identifier for this vehicle and is the number recorded in the license plate registration. The VIN is recorded on a label attached to the bulkhead wall above the passenger's seat and on the **Federal Certification Label**. The Federal Certification Label is located on either the driver's rear door post or on the driver's door below the door latch. This label is a plastic decal (about 11" long and 2" high) that contains a variety of manufacturing information (including the VIN and **Work Order Number**).

The 15-digit **Utilimaster Body (or Unit) Serial Number** is recorded on the **Federal Certification Label**.

The **Body Serial Number** or 7-digit **Work Order Number** can also be used to identify the body for service inquiries.

Diesel Particulate Filter (DPF)			Diesel Exhaust Fluid (DEF) Status and Recommendation		
DPF Message	Action Required	Description	DEF Gauge	DEF Message / Indicator Lights	Action Required
DPF Filter is in Regeneration Mode	No Action Required	DPF Filter is in Regeneration Mode	DEF Gauge	No Message / No Light	None
DPF Filter is in Regeneration Mode	When Possible	Perform Full Regeneration: Drive vehicle above 50mph (80km/h) for approximately 20 minutes until "REGEN IN PROGRESS" message goes off or, if that is not possible, perform the Switch Regeneration described below.	DEF Gauge	No Message / No Light	DEF level low
DPF Filter is in Regeneration Mode	When Possible	Perform Switch Regeneration: Idle in "P" (NLT) or neutral (NLT) with the parking brake on, press the switch and continue idling approximately 20 minutes until "REGEN IN PROGRESS" message goes off.	DEF Gauge	No Message / No Light	DEF level low
DEF level low	Immediately	Caution: Exhaust parts and gases become very hot when idling in "P" (NLT) or neutral (NLT). To avoid fire, do not touch or place anything near the exhaust system. If the engine is in reduced power mode, the Check Engine Warning Indicator Light will illuminate and you should take the vehicle to your dealer for service as soon as possible.	DEF Gauge	No Message / No Light	DEF level low

Order the complete 12' stationary shelving kit V02-12SK.

Order the complete 14' stationary shelving kit V02-14SK.

Stationary (non-fold up) shelving package

Ordering Parts

How to Order

Reach dealers should order Utilimaster vehicle parts through the Isuzu ICS system.

- Utilimaster parts will be invoiced through the Isuzu Accounts Receivable system and will be processed as Isuzu parts purchases.
- Parts will be drop shipped by Utilimaster via pre-paid freight.
- Utilimaster and Isuzu parts must be submitted as separate orders.
- Shortage claims, freight claims and return requests should be submitted through ICS. Isuzu will transfer the claims/requests to Utilimaster.
- Contact the Isuzu Parts Technical Hotline 877-478-9828 for assistance with finding Utilimaster part numbers.
- Questions regarding availability, shipment status, and other issues that cannot be answered through normal ICS inquiries should be directed to Utilimaster at 800-237-7806.
- For questions on the order process, contact an Isuzu District Service and Parts manager or the dealership's Regional office.
