

# REFRIGERATED TRUCKS

DRIVING INTELLIGENT VEHICLE SOLUTIONS

Trusted bodies by Utilimaster are now available in refrigerated configurations. Built tough to deliver optimal performance and maximum versatility, refrigerated Utilimaster bodies provide a superior option for delivering perishable cargo. Standard models and custom engineered solutions are available to ensure your truck is optimized for your route.

*“Utilimaster designed and built a refrigerated truck to meet our exact needs with separate compartments for frozen goods, refrigerable goods and ambient goods.”*
