

**ACCELERATING
THE FUTURE
OF LAST MILE
DELIVERY.**

VELOCITY M3

Velocity M3: The world's most advanced walk-in cargo van.

The innovative all-new Velocity M3 from Utilimaster is changing the proficiency of delivery and service. It combines the nimbleness, comfort, and fuel efficiency of a cargo van with the cargo space, access, and capacity of a walk-in van. Built with a revolutionary access system that automatically opens, closes, and locks interior and exterior doors for unequalled ease, efficiency, and driver comfort, Velocity M3 is the industry's most unique walk-in cargo van that promises to accelerate business with unprecedented new speed.

Accelerated Access System.

Velocity M3's smart technology will forever change driver access and productivity. Designed to shave seconds off every stop, it automatically opens, closes, and locks interior and exterior doors. Giving your driver newfound freedom to quickly grab a package or tools without slowing down or fumbling with door handles and keys. Valuable time is saved, along with wear and tear on your drivers. It's a revolution in fleet vehicle access, security, and efficiency.

Wider bulkhead doors.

Getting from cab to cargo area is as easy as sliding off a higher seat and walking through a wide door that automatically opens for instant access. Plus, with 85" ceiling height, there's no need to stoop or strain.

More ways to instant access.

Velocity M3's Accelerated Access System can be automatically engaged by the parking brake, digital dash, wrist, or key fob. Whatever you prefer to make each delivery or service call as fast and efficient as possible.

Automatic cab door.

Getting in and out with a handful of boxes or tools is automatic with Velocity M3. The extra-wide cab door opens, closes, and locks with a key or wrist fob or can be operated by an advanced dash system.

Advanced technology built on a Sprinter chassis.

The innovative Velocity M3 looks like it drove in from the future. It delivers a unique aerodynamic design without sacrificing storage space, payload, or accessibility. Built on the proven foundation of a Mercedes Sprinter chassis, Velocity M3's diesel engine is built for economy and efficiency. It's American-made to reliably handle the rigors of urban delivery and service, while dramatically reducing operating costs.

Shorter wheelbase.

With a wheelbase ranging from 144" to 170", the Velocity M3 showcases improved turn radius abilities, key to high-frequency urban delivery.

Walk-in van storage capacity.

Velocity M3's available payload of more than 5,000 lbs. and up to 780 cubic feet of cargo capacity, combined with an average of 18 mpg, make this class-3 vehicle the most efficient workhorse on the road today.

Aerodynamic design.

The Velocity M3 delivers a streamlined, contemporary design without sacrificing storage space, payload, or accessibility. Unique aerodynamics enhance fuel efficiency up to 18 MPG.

Fuel-efficient diesel.

Six-cylinder diesel engine and streamlined design offer up to 18 mpg fuel efficiency.

Next generation comfort, convenience, and safety.

At the heart of every delivery and service call is your driver. He or she needs to be comfortable, secure, protected, and always ready for action. The extra quiet cab is built around your driver's safety and productivity. Plus, there's a jump seat for adding crew during busy seasons.

Glide-off elevated seat.

The driver sits high on an ergonomically designed seat that improves visibility and virtually eliminates bending while getting up and sitting down. Simply turn and step into action.

Push start & keyless entry.

No need to fumble around or lose keys. Velocity M3 has easy push start technology and keyless entry (key fob or wristband) that keeps the driver in perpetual and productive motion.

Digital dash system.

Large in-cab vehicle intelligence monitor displays vital information for navigation and safety.

- **360° CAMERA SYSTEM WITH 9" HD DIGITAL DISPLAY:** Bird's-eye view cameras alert drivers of potential impediments or danger in all directions. Front and rear collision sensors provide an extra level of safety.
- **BLUETOOTH CONNECTIVITY:** Allows seamless integration of all Bluetooth devices.
- **NAVIGATION DISPLAY:** GPS readout helps drivers locate addresses for speed, safety, and efficiency.
- **LANE DEPARTURE AND BLIND SPOT DETECTION:** Alerts drivers when unseen obstacles appear on left- and right-hand blind spots, as well as drifting over lanes.
- **COLLISION MITIGATION SYSTEM:** Avoid dangerous accidents and collisions with early warning system.
- **SIDE AUTO DOOR CLEAR ZONE SENSOR:** Detects clearance to open the door on passenger side; any obstruction within 21" from door will keep the door from opening.
- **REAR RADAR SENSOR SYSTEM:** Alerts drivers of any obstructions behind the vehicle.

Built to drive your business forward.

Whatever service, product, or goods you deliver, Velocity M3 is purpose-designed to provide you with the vehicle features and benefits you need to succeed.

Nimble maneuverability.

Short wheelbase, tight turning radius, and advanced agility without sacrificing power or capacity. Velocity M3 excels at getting your drivers to the job safe and sound.

Comfortable & accessible.

Easy to drive. Easy to exit and enter with revolutionary automatic technology. Efficiency is the driving force for your workforce.

Extra payload & storage.

There's voluminous room inside to make your fleet work harder and longer from first to last mile. Call on Utilimaster to help you customize an upfit for your outfit.

Smooth moves, even on the outside.

The Velocity M3's noticeably sleek, modern, aerodynamic design is made to get you noticed. A smoother exterior with no rivets lets you add your brand graphics with bold seamless decals.

Lower body fiberglass cladding improves durability and is simple and inexpensive to replace if damaged.

Cargo box sizes

Drive into the future with Velocity M3.

Your business deserves the forward-thinking design, reliability, and efficiency of the world's most advanced walk-in cargo van. Take the Velocity M3 for a test drive, and you'll never go back to the traditional ways of delivering goods and services to your customers again.
