Grocery Delivery

IT'S TIME TO FULFILL.

We've assembled the best to fit your delivery needs.

The grocery business has changed. And expanded. More consumers have tried online shopping and home delivery, and it turns out they love the ease and convenience. Now, you can bring your stores, brand, and experience to them with custom vehicles built around your stores and customers.

Utilimaster has been supplying fleets for decades with rugged and reliable vehicles built around our proprietary and proven process of Work-Driven Design®. We've been in the jump seat for millions of miles of ride alongs. We know what it takes to keep your drivers safe, comfortable, and efficient.

Walk-in Van

The ultimate grocery delivery workhorse offering maximum versatility and interior design capabilities, with a highly modular cargo area and multiple side and rear door configurations.

- Ample cargo space and load capacities to make deliveries all day long without having to restock at the warehouse or store.
- Customized upfits to increase driver productivity and safety
- Can be configured for refrigerated or dry freight

Cargo Van Upfit

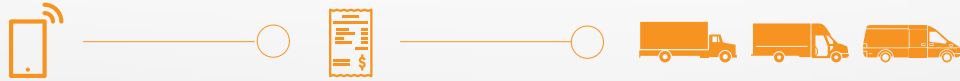

The ultimate vehicle for quick stop deliveries, our cargo van upfits feature purpose-built storage configurations, making them a staple for high frequency, urban and suburban grocery delivery.

- Easy to load and unload
- Built to spec with custom shelving, refrigerated or ambient
- Available on a Ford Transit, Mercedes Sprinter, or Ram Promaster chassis.

One Supplier. One PO.

We spec, customize, build, upfit and deliver all your fleet vehicles from start to finish. With Utilimaster there's no need to wrestle with different vendors for vehicles, options, components, and upfits.

One supplier and one PO help you deliver faster, safer, and smarter.

Last Mile Grocery Delivery Vehicle

Our unique and innovative Last Mile Grocery Delivery vehicle is built for delivering multiple types of food — fresh, frozen, cold, and ambient.

- Each compartment is externally accessed and can be customized with racking or shelving to meet specific needs
- Seamless insulation efficiently keeps the heat out and cold in to keep deliveries fresh.
- Temps for each compartment are set to meet your specs.

Velocity

The Velocity from Utilimaster is changing the proficiency of food & beverage delivery and service. It combines the nimbleness, comfort, and fuel efficiency of a cargo van with the cargo space, access, and capacity of a walk-in van.

- Can be customized for refrigeration or upfit to meet the needs of non-perishable deliveries.
- Industry-leading driver ergonomics and safety systems
- Available a Mercedes Sprinter chassis (M3) and either class 2 (under 10,000 GVWR) or class 3 Ford Transit chassis' (F3, F2.)

Grocery Delivery

Do what your customers are doing. Connect with us by phone or online. Together, we can help deliver a fleet with the perfect mix of vehicles so you can supply whenever there's demand.
